

## White Shower Curtain Specification

---

### Specification

- Manufactured by Byretech in our UK Factory in Herefordshire
- Number of eyelets depends on the curtain size
- Stainless Steel rustproof eyelets
- 100% White Polyester and treated with a water repellent finish
- Non-woven textile header band for added strength and will not distort after washing the curtain
- Easy care fabric specially produced for the bathroom
- Fully weighted hem, designed to avoid the shower curtain from pulling into the user
- Double stitched at each end to prevent the weights from falling out
- Fits any shower rail
- Moisture Proofed and Machine Washable at 30 degrees - (no fabric conditioner)
- Wash at regular intervals to keep the curtain fresh and clean
- A cool iron after washing maintains the water repellency
- Can be washed and hung immediately to remove any creases
